JBIS Journal of the British Interplanetary Society

VOLUME 45 1992

INDEX

EDITORS	*THEMES*
M.J. Fogg	Terraforming (Part III)
O. Gwynne and C.P. McKay	Engineering and Technology for a Mars Base
J. Harlow	British Rocket Development
H. Kelliher	Vega in Space
A.J. Meadows	Space and The Media
P. Norris	Logica in Space (Part IV)
P.R. Ratcliff	The Cassini/Huygens Mission to Saturn
S. Santoli	Exobiology (Parts I, II)
S. Santoli	Nanotechnology
F. Winter and F. Ordway III	Pioneering Rocketry and Spaceflight (Part I)

AUTHOR INDEX

Andelman D, Barak, I. and Nissani D.N.	A Modular High Rate Data Link for Small Satellites	491
Ashton C.	Antenna Testing for the Inmarsat 2 Ground Control System	51
Atkinston D.H. and Gwynne O.	Design Considerations for a Mars Solar Energy System	183
Bar-Lev M., Rosenbaun P.	The Space Technology Directorate	477
Bar-Nun A. and Tal A. and Simhi M.	The Israel Space Agency	475
Becklake E.J. and Millard D.	Congreve and His Works	281
Beer P.	Space and the Radio Reporter	463
Birch P.	Terraforming Mars Quickly	331
Boyd R.C. and Clark B.C.	Exploration Strategies and the Astronaut's Toolset	195
Brosch N. and Topaz J.	Space Astronomy in the Ultraviolet: A First Israel Experiment	497
Calcutt S. *et al*	The Composite Infrared Spectrometer	381
Coates A.J. *et al*	The Electron Spectrometer for the Cassini Spacecraft	387
Coffey E.J.	The Anthropomorphic Fallacy	23
Coffey E.J.	Close Encounters of the Fourth Kind	31
Couper H and Henbest N.	Living Through the Space Age	466
Day B.P.	The Black Arrow Satellites	173
Delin J.	Space: A View from the Street	445
DeVorkin D.H.	War Heads into Peace Heads: Holger M. Toftoy and the Public Image of the V-2 in the United States	439
Dixon B.	From Sputnik to Apollo: Space in *New Scientist*	449
Dowling R.	The Richard Bogue Monument: A Tribute to an Early British Rocketeer	285
Drexler K.E.	Molecular Manufacturing for Space systems: An Overview	401
Ellis J.A.	Skylark Sounding Rockets - Past and Present	179
Fairclough J.H.	Developing Software for Space Systems	103
Fisher S.A. et al	Applying CCSDS Recommendations	95

Fogg M.J.	A Synergic Approach to Terraforming Mars	315
Fogg M.J.	An Estimate of the Prevalence of Biocompatible and Habitable Planets	3
Golotyuk S.V.	Victor Coissac: A Forgotten Astronautical Pioneer	291
Gwynne O.	Heat Transfer from an Internal Combustion (Otto-Cycle) Engine on the Surface of Mars	211
Hansson P.A.	To the Stars with the Cytoskeleton?	415
Harlow J.	On the Many Guises of the Rook	139
Harris R.	Development Issues for the Earth Observations Ground Infrastructure in Europe	111
Kenyon D.S. and Pecover D.	Operations Systems Engineering for ERS-1	81
King-Hele D.	A Space Scientist Let off Lightly by the Media	469
Kritsky M.S. *et al*	Flavoproteins as Natural Prototypes of Molecular Electronic Devices with Photocontrolled Conductivity	421
Kuznetz L.H. and Gwynne O.	Space Suits and Life Support Systems for the Exploration of Mars	215
Lifshitz Y.	Ground Testing of Spacecraft Candidate Materials and Electronic Components Compatibility to Space Environment	483
Lysenko S.V. and Demina N.S.	Drying as One of the Extreme Factors for the Microflora of the Atmosphere	39
McNally D.	The Media - Help or Hindrance in Promoting Public Understanding of Space Science?	451
Marley R. and Dungate D.G.	Managing Satellite Pointing Accuracy - A Systems Engineering Approach	63
Matthews C.N.	Hydrogen Cyanide Polymerization: A Preferred Cosmochemical Pathway	43
Meadows A.J. and Hancock-Beaulieu M.M.	Media Reporting of Space Activities and Public Opinion	455
Merkle R.C.	Self Replicating Systems and Molecular Manufacturing	407
Miller R.	Herman Potocnik - alias Hermann Noordung	295
Mitchell I.T.	OTS-2: End-Of-Life Dynamics Tests	57
Moore P.	Space Research and the Media	435
Moore P.O.	Stonechat	145
Murray C.D.	The Cassini Imaging Science Experiment	359
Newman B. and Hutton S.J.	Study of Reed-Solomon Correction for Mass Memory	121
Nussinov M.D., Lysenko, S.V., Kozlovskii M.Yu and Pogodin Yu s.	An Approach to the Detection of Microbe Life in Planetary Environments Through Charge-Coupled Devices	13
Nussinov M.D. and Lysenko S.V.	Can Spores Arrive Alive at Interstellar Space?	22
Nussinov M.D. *et al*	Chemistry of the Interstellar Medium - an Evolutionary Dead End?	251
Otroshchenko V.A. *et al.*	Polycondensation Reactions of Certain Biologically Essential Molecules on Mineral Surfaces	15
Papagiannis M.D.	What Makes a Planet Habitable, and how to Search for Habitable Planets in Other Solar Systems	227
Peattie I.W.	The Black Arrow Launch Vehicle Development Programme	155
Peterson C.	Nanotechnology: Evolution of the Concept	395
Pidgeon A., Howard G., and Seaton B.	Operational Aspects of Spacecraft Autonomy	87
Ponnamperuma C. *et al*	Chemical Studies on the Existence of Extraterrestrial Life	241
Ratcliff P.R. *et al*	The Cosmic Dust Analyser	375
Raulin F. *et al*	Titan and Exobiological Aspects of the Cassini-Huygens Mission	257
Reupke W.A.	The Rocket Pioneers and Atomic Energy	297
Robinson H.G.R.	The Genesis of Black Arrow	149
Rolfe J.A. and Green S.W.	The Solid Propellant Motors for Black Arrow	165
Ronan C.A.	Reminders of Space	459
Shachar M. and Lapid P.	The Techsat Program	501
Sandford M.C.W.	The Cassini/Huygens Mission and the Scientific Involvement of the United Kingdom	355
Santoli S.	Enroute to Basic Machine Members for Molecular Manufacturing: Hypotheses for Rigid-Link Nanorobotic Arms	427
Santoli S.	The Sceptical Exobiologist - A Boylean Evolutionary Approach to the Bio-Logical Puzzle	231
Smith I.E.	Arthur Valentine Cleaver 1917 - 1977	305
Southwood D.J. *et al*	Dual Technique Magnetometer Experiment for the Cassini Orbiter Spacecraft	371
Tal A.	Using Landsat TM Satellite Imagery for Monitoring Processes at the Dead Sea Works Potash Production Pans	488
Taylor R.L.S.	Paraterraforming: The Worldhouse Concept	341
Townsend C. and Bestwick D.	EODC: UK's Contribution to Global Monitoring	69
Turvey P.	A Contemporary Model of Sir William Congreve's Life-Saving Rocket, c.1822	289
White E.C.	Gosling	135
Widdowson J.M. and Taylor D.	Training for manned Spaceflight	77
Winter F.H.	Who First Flew in a Rocket?	275
Zandberhgen R.C.A. et al	ERS-1 Operational Orbit Determination and Prediction at ESOC	117
Zarnecki J.C.	Surface Science Package for the Huygens Titan Probe	365
Zubrin R.	Long Range Mobility on Mars	203
